

# Community Empowerment

**What is it?** Community Empowerment Networks have been established throughout the country as a link between the voluntary and community sectors, local people and the Local Strategic Partnership. It is a mechanism whereby local people can be heard, to influence planning and service provision for their area.

**How does it affect you?** Individuals are best placed to tell us about issues affecting the area where they are living. A Community Empowerment Network would enable these views to be heard at a wider level. This may enable you to make links to engage and work with others to improve your area or your views can be passed on to an appropriate agency to be incorporated into their strategic planning for your community or neighbourhood.

**Want to find out more?** Come and meet with us and tell us what is good about your community, neighbourhood or street? What would make a difference to you?

Burton Town Hall  
Wednesday 21st June  
At 6.30 - 8.30 p.m.
